It is true that there have been others in which the list of entries was longer, but there never of entries was longer, but there never was another one in which the competition was restricted in any way as it has been this year. The courts are in perfect shape, according to William Tucker, the turf expert, who has been getting them ready, and if there is no rain they should bring forth the best of tennis.

All the little details of the tournament have received careful attention, the kind have received careful attention, the kind

that made the arrangements at the Davis cup matches last year well nigh perfect. Stands have been built to accommodate 7,000 persons. Goodyear Tires Now on 500,000 Cars

There are now two million users of automobile tires. Figuring four tires yearly to a car, we are now supplying 500,000 cars. That means about two million tires this year.

Goodyear tires are gaining new users faster than ever before in their history.

### Tires Not Alike

Goodyears are Fortified tires. They have five exclusive features, each of which combats a major trouble. These and other extras are costing us millions of dollars. They are saving our users ten times as much, perhaps.

Yet note how many users still buy tires without them. They are not opposed to Goodyears we are sure. But they believe-most of them, probably-that standard tires will average much alike.

### Worth Will Tell

But Goodyears outsell any other tire. Every month they are winning armies of new users. And they will win you if you'll let them.

Some may meet with mishap and misuse. But a Fortified tire will, on the average, outlast a tire that isn't. A double-thick tread, like the Goodyear All-Weather, will outlast a thin anti-skid. Extras in size, strength, features and fabric are bound to mean extra service.

We urge you to try the Goodyear tire as we are building it this summer. We have added \$500,-000 in new extras this year.

These are the best tires built with fabric. Not a single rival approaches them in some important ways. Let them prove how they save trouble, how they save money. Their super-quality has won a half-million users. Give them a chance to win you.
